Dave:

Attached is the FPM on the SPS positions. CSC has no restriction as to total amount of money involved . . . only the grade structure. I'm told by our people that insofar as can be recalled the money limits in our Regulations [REDACTED] were put in by finance people . . . presumably PPB. However, we now actually control by ceiling and as far as we are aware, there is no reference to total monies expended on SPS. If you have no requirements along this line, i.e. total money, I propose we eliminate the comments in [REDACTED] beginning with "to provide limitations . . . etc." We can end the paragraph with "Any increase in Agency ceiling . . . approval of Director of Central Intelligence . . ." plus any comment you would have relative to OMB influence on the ceiling. This would require an editing of subparagraph (i). If you would want to give me informal editings over the phone, I'll work up a draft revision for your "official informal" review.
